

## PREFACE

---

This volume developed from a conference held at and funded by the Max Planck Institute for Social Anthropology on 26 and 27 November 2004. With the exception of the contribution by Michael Meeker, all the chapters in this volume originated as papers presented during that conference. The organizers are grateful to Michael Meeker and Tsypylma Darieva, who were discussants during the conference, and to Franz von Benda-Beckmann, who gave encouragement and advice during both the preparations and the conference itself. For assistance in preparing the manuscript for publication we are indebted to Gesine Koch and Sung-Joon Park. But most of all we wish to thank the participants. They took part in some lively discussions of both individual papers and general themes, and we have benefited from these in the preparation of this volume, in particular the Introduction, for publication.
