Moving beyond the well-established problems and public discussions of the Holocaust, this collection of essays, written by some of the leading German historians of the younger generation, leaves behind the increasingly agitated arguments of the last years and substantially broadens, and in many areas revises, our knowledge of the Holocaust. Unlike previous studies, which have focused on whether the Holocaust could best be understood as the “fulfilment of a worldview or as a process of "cumulative radicalisation,” these articles provide an overview of how situational elements and gradual processes of radicalisation were variously combined with ever-changing objectives and fundamental ideological convictions.

Among the many myths about the relationship of Nazism to the mass of the German population, few proved more powerful in postwar West Germany than the notion that the Wehrmacht had not been involved in the crimes of the Third Reich. This volume contains important contributions by distinguished historians who have thoroughly demolished this Wehrmacht myth. This collection raises questions about why “ordinary men” got involved as perpetrators and bystanders in an unprecedented program of extermination of “racially inferior” men, women, and children in Eastern Europe and the Soviet Union during the Second World War. Those who have seen these terrible photos of mass executions and other atrocities, currently on show in an exhibition in Germany and soon to be in the United States, will find this volume most enlightening.

Despite the widespread trends of secularization in the 20th century, religion has played an important role in several outbreaks of genocide since the First World War. This collection of essays examines the intersection between religion and state-organized murder in the cases of the Armenian, Jewish, Rwandan, and Bosnian genocides. It offers closely related case studies that shed light on three fundamental aspects of this issue: the use of religion to legitimize and motivate genocide; the potential of religious faith to encourage physical and spiritual resistance to mass murder; and finally, the role of religion in coming to terms with the legacy of atrocity.

“...one of the best jobs of integrating Russian, German, American and British writing on the subject... most students wishing to write a paper would find everything they need in the way of bibliographical materials by referring to this book.”

Slavic Review

This volume provides a guide to the extensive literature on the war in the East, including largely unknown Soviet writing on the subject. Indispensable for military historians, but also for all scholars who approach this crucial period in world history from a socio-economic or cultural perspective.

A. Dirk Moses

"Moses has done the scholarly community a service by foregrounding the important question of genocide in Australian history in such a thoughtful, open-ended way. [It] engender further informed debate about the nature of genocide, the nature of colonial empires and the nature of the Australian past."

Journal of Australian Studies

“The book makes a valuable contribution to scholarship on a subject that touches deep into the dark shadows of Australian identity. It builds on and explores the underlying issues that emerged in the heat of the genocide debate in Australia... Genocide and Settler Society not only offers a number of local case examples, grounding the debate in the Australian context, but also places the Australian debate in a broader international context with contributions from eminent European and Australian scholars, bringing new perspectives on this vexed question.”

ROBBERY AND RESTITUTION
The Conflict over Jewish Property in Europe
Edited by Martin Dean, Constantin Goschler and Philipp Ther
Published in Association with the United States Holocaust Memorial Museum (USHMM)

“Yourobbery and Restitution is essential reading for all Holocaust scholars... A brief review cannot do justice to the subtlety of the arguments, but these excellent essays greatly advance our understanding of the complex issues.”

Holocaust and Genocide Studies

“A well-structured, ambitious collection of essays, it will certainly be an essential read for anyone interested in the anti-Jewish policies of National Socialist Germany and their long-term consequences for postwar Europe.”

Martin Dean is a Research Scholar at the Center for Advanced Holocaust Studies, United States Holocaust Memorial Museum (USHMM). Constantin Goschler teaches modern history at the Humboldt-University, Berlin. Philipp Ther teaches modern Central and Eastern European History at the European University Frankfurt/Oder, Germany.

EXPLOITATION, RESETTLEMENT, MASS MURDER
Political and Economic Planning for German Occupation Policy in the Soviet Union, 1940-1941
Alex J. Kay

“Kay’s painstaking exploration of the planning behind the subsequent ‘organized chaos’ goes far to enhance our understanding of Nazi intentions vis-à-vis the population of the occupied Soviet Union.”

Holocaust and Genocide Studies

“This is an original, richly detailed, and on the whole readable work... The true originality of Kay's work lies in reinterpretation as well as in archival evidence, but readers must work this out for themselves.”

In his writings on the “Final Solution,” Raul Hilberg pondered the role of trains: “How can railways be regarded as anything more than physical equipment that was used, when the time came, to transport the Jews from various cities to shooting grounds and gas chambers in Eastern Europe?” This book explores the question by analyzing the victims’ experiences at each stage of forced relocation: the round-ups and departures from the ghettos, the captivity in trains, and finally, the arrival at the camps. Utilizing a variety of published memoirs and unpublished testimonies, the book argues that victims experienced the train journeys as mobile ghettos, comparable in importance to the more studied ghettos and camps.

THE ‘FINAL SOLUTION’ IN RIGA

Exploitation and Annihilation, 1941-1944

Andrej Angrick and Peter Klein

Translated from the German by Ray Brandon

“With its…[over thousand] detailed and expansive footnotes drawing on twenty-four different archive collections in eight countries and three continents and an enormous secondary literature, this is one of the best researched regional studies of the Holocaust ever to appear. It is helped by the fact that the authors are also always so cognizant of what was happening elsewhere in Europe at the same time and thus frequently draw out the relationship between seemingly haphazard local decisions and trends across Europe… Indeed, the way in which the book ‘makes sense’ of complex institutional behavior is at times breathtaking…The precision in the detail and the scope of the contextualization make this one of the more important works to appear on the Holocaust in recent years.” — English Historical Review

Andrej Angrick and Peter Klein are historians, consultants, and researcher affiliated with the Hamburg Foundation for the Promotion of Science and Culture.

THE KINGS AND THE PAWNS

Collaboration in Byelorussia during World War II

Leonid Rein

For many years, the history of Byelorussia under Nazi occupation was written primarily from the perspective of the resistance movement. Focusing on the attitude of German authorities toward the Byelorussians, marked by their anti-Slavic and particularly anti-Byelorussian prejudices on the one hand and the motives of Byelorussian collaborators on the other, the author clearly shows that notwithstanding the postwar trend to marginalize the phenomenon of collaboration or to silence it altogether, the local collaboration in Byelorussia was clearly visible and pervaded all spheres of life under the occupation.

Leonid Rein is Research Associate at the International Institute for Holocaust Research, Yad Vashem (Israel).

WAR AND GENOCIDE

GENERAL EDITORS

Omer Bartov, Brown University
A. Dirk Moses, European University Institute, Florence, Italy

There has been a growing interest in the study of war and genocide, not from a traditional military history perspective, but within the framework of social and cultural history. This series offers a forum for scholarly works that reflect these new approaches.
