

# Acknowledgments

This volume is the outcome of research that started many years ago, and that involved many colleagues and scholars. There is a long list of people who helped me on the topic of Italian motorways, including Lando Bortolotti, Francesco Cassata, Valentina Fava, Andrea Giuntini, and Federico Paolini, whose works unveiled a lot to me.

I am also grateful for the suggestions I received from Hans-Liudger Dienel, Mathieu Flonneau, Peter Merrimann, Gijs Mom, Reiner Ruppmann, Frank Schipper, Bruce E. Seely, Laurent Tissot, Helmuth Trischler, Thomas Zeller, and so many others.
