AFTER THE HISTORY OF SEXUALITY
German Genealogies with and beyond Foucault
Edited by Scott Spector, Helmut Puff, and Dagmar Herzog

“This ability to go back to and beyond Foucault seems to be genuinely liberating [as shown] in this excellent collection of essays—ranging in period from the medieval to the twentieth century… This new focus on resistance as well as on discipline, and on milieux as well as on discourses, is highly refreshing. The authors are to be commended for their bold and self-critical venture. They open up the possibility of a less reverential, but more complex and insightful assessment of Foucault’s work. It is pleasing to see German historiography at the head of this exciting new trend.” · German History

Volume 6

BECOMING EAST GERMAN
Socialist Structures and Sensibilities after Hitler
Edited by Mary Fulbrook and Andrew I. Port

“Moving beyond debates concerning totalitarianism, the 12 authors analyze the characteristics of daily life in the GDR. As a result, the subjects of the essays are sometimes surprising—dieting habits, the battle against tuberculosis, and luxury dining, for example—which only adds to the collection’s contribution to the historiography of its subject… [T]he authors succeed in their goal of moving beyond the gray exteriors and drab lives that are often associated with life in East Germany. This alone makes the book a valuable addition to the scholarly literature.” · Choice

“Mary Fulbrook and Andrew I. Port have brought together essays on an array of topics that together serve as a very useful barometer of the state of the field of historiography on East Germany… original, incisive, and persuasive…” American Historical Review

BEYOND ALTERITY
German Encounters with Modern East Asia
Edited by Qinna Shen and Martin Rosenstock

This collection of essays examines German-language cultural production pertaining to modern China and Japan, and explicitly challenges orientalist notions by proposing a conception of East and West not as opposites, but as complementary elements of global culture, thereby urging a move beyond national paradigms in cultural studies. Essays focus on the mid-century German-Japanese alliance, Chinese-German leftist collaborations, global capitalism, travel, identity, and cultural hybridity. The authors include historians and scholars of film and literature, and employ a wide array of approaches from postcolonial, globalization, media, and gender studies. The collection sheds new light on a complex and ambivalent set of international relationships, while also testifying to the potential of Asian German Studies.

THE EMPEROR’S OLD CLOTHES
Constitutional History and the Symbolic Language of the Holy Roman Empire
Barbara Stollberg-Rilinger
Translated from the German by Thomas Dunlap

“The German Studies Association has done the scholarly community a favor by including this English translation of Barbara Stollberg-Rilinger’s important book in their series Spektrum. Her approach is creative and an important antidote to the convoluted constitutional studies that have been written before.” · Journal of Modern History

For many years, scholars struggled to write the history of the constitution and political structure of the Holy Roman Empire. This book argues that this was because the political and social order could not be understood without considering the rituals and symbols that held the Empire together.

THE DEVIL’S RICHES
A Modern History of Greed
Jared Poley

“...a thought-provoking study of a subject that is too often taken for granted, rather than subjected to critical examination.”
- Financial Times

A seeming constant in the history of capitalism, greed nonetheless undergone considerable transformations over the last five hundred years. This multilayered account offers a fresh take on an old topic, arguing that greed was experienced as a moral phenomenon and deployed to make sense of an unjust world. Focusing specifically on the interrelated themes of religion, economics, and health—each of which sought to study and channel the power of financial desire—Jared Poley shows how evolving ideas about greed became formative elements of the modern experience.

RELOCTANT SKEPTIC
Siegfried Kracauer and the Crises of Weimar Culture
Harry T. Craver

“Reluctant Skeptic opens a window into a moment and a place in time through in-depth analysis of Kracauer’s polyphonic engagement with pressing contemporary questions and the role of the critic in assessing them. It makes no claim that Kracauer’s perceptions of secularization and religion offer the paramount vantage point from which to take the measure of the crises we associate with Weimar, and it acknowledges that Kracauer’s attentiveness to religion ebbed in the later 1920s. It succeeds admirably in creating an intellectual milieu analogous to the socio-cultural or socio-denominational milieus explored in studies of Weimar political culture but also offers a fresh perspective on the intellectual uncertainties of the post-war era.”

DREAMS OF GERMANY
Musical Imaginaries from the Concert Hall to the Dance Floor

BEYOND POSTHUMANISM
The German Humanist Tradition and the Future of the Humanities
Alexander Mathäis

Kant, Goethe, Schiller and other eighteenth-century German intellectuals loom large in the history of the humanities—both in terms of their individual achievements and their collective embodiment of the values that inform modern humanistic inquiry. Taking full account of the manifold challenges that the humanities face today, this volume recasts the question of their viability by tracing their long-disputed premises in German literature and philosophy. Through insightful analyses of key texts, Alexander Mathäis mounts a broad defense of the humanistic tradition, emphasizing its pursuit of a universal ethics and ability to render human experiences comprehensible through literary imagination.
