Protest movements have been recognized as significant contributors to processes of political participation and transformations of culture and value systems, as well as to the development of both a national and transnational civil society. This series brings together the various innovative approaches to phenomena of social change, protest and dissent which have emerged in recent years from an interdisciplinary perspective. It contextualizes social protest and cultures of dissent in larger political processes and socio-cultural transformations by examining the influence of historical trajectories and the response of various segments of social, political and legal institutions on a national and international level.

In doing so, the series offers a more comprehensive and multi-dimensional view of historical and cultural change in the 20th and 21st centuries.

**PARTY RESPONSES TO SOCIAL MOVEMENTS**

Challenges and Opportunities

*Daniela R. Piccio*

Across the West, the explosion of social movement activity since the late 1960s has constituted a “participatory revolution” that has posed profound challenges for formal political parties. Through an analysis of new interviews, institutional documents, and a host of other largely unexploited sources, Daniela R. Piccio provides a rich and empirically grounded exploration of the wide-ranging responses to these movements. Focusing on Italy and the Netherlands since the 1970s, *Party Responses to Social Movements* demonstrates how political parties have incorporated the demands of movements to a surprising extent, even as both have grappled with fundamental and inevitable tensions between their respective roles and aims.

THE REVOLUTION BEFORE THE REVOLUTION
Late Authoritarianism and Student Protest in Portugal
Guya Accornero

“The Revolution before the Revolution is a landmark study, bringing us an insightful look into student mobilization against authoritarianism which will be of interest not only to students and scholars of Southern European democratization, but also to those concerned with the dynamics of opposition to authoritarianism in a wide range of settings.” • Social History

PROTEST CULTURES
A Companion
Edited by Kathrin Fahlenbrach, Martin Klimke, and Joachim Scharloth

“This volume definitely provides an important starting point. It helps explain how different protest movements construct their own reality, use media in novel ways, organize actions across all spheres of public life, and involve various representations, their very own language, as well as different forms of rule breaking. And it repeatedly reminds us how much work there still is to be done—how little we actually know about why and how protest occurs.” • German Politics and Society
