Foreword xx

Michael J. O’Brien and David Hurst Thomas

Introduction. On the Challenges of Measuring Diversity in Archaeology 1

Briggs Buchanan and Metin I. Eren

Chapter 1. Dispersion and Diversity: Parfleche Variation on the Great Plains vs. the Columbia Plateau 26

Stephen J. Lycett

Chapter 2. The Diversity of North America’s “Old Copper” Projectile Points 43

Michelle R. Bebber and Anne Chao

Chapter 3. Diversity in Hunter-Gatherer Architecture 64

Brian Andrews, Danielle Macdonald, and Brooke Morgan

Chapter 4. The Potential of Coverage-Based Rarefaction in Zooarchaeology 81

J. Tyler Faith and Andrew Du

Chapter 5. Diversity and Lithic Microwear: Quantification, Classification, and Standardization 97

W. James Stemp and Danielle A. Macdonald

Chapter 6. Intensification Mechanisms Driving Dietary Change among the Great Plains Big Game Hunters of North America 125

Erik Otárola-Castillo, Melissa G. Torquato, and Matthew E. Hill

Appendix 6.1. Summary Information for Archaeological Sites Used in This Study 159

Defining and Measuring Diversity in Archaeology
Another Step Toward an Evolutionary Synthesis of Culture
Edited by Metin I. Eren and Briggs Buchanan
https://www.berghahnbooks.com/title/ErenDefining
Chapter 7. Challenges and Prospects of Richness and Diversity Measures in Paleoethnobotany 178
   Alan Farahani and R. J. Sinensky

   Appendix 7.1. Abundance of Reproductive Plant Parts Recovered from the Las Capas Site, Southeastern Arizona, 1220–730 BCE 205

Chapter 8. Quantifying Evenness of Paleoindian Projectile Point Forms within Geographic Regions of Eastern North America 213
   Matthew T. Boulanger, Ryan P. Breslawski, and Ian A. Jorgeson

Chapter 9. Thinking about Diversity in Material Culture at Multiple Scales 247
   Steven L. Kuhn

   Robert K. Colwell and Anne Chao

Epilogue. Diversity Metrics are Convenient, but Their Archaeological Meanings Are Still Obscure 295
   R. Lee Lyman

Index 322
